# Muhammad Naseer

Flutter Developer | Delivered 15+ Apps to App Store & Play Store |  
Helping Startups Launch iOS & Android Apps Faster  
Peshawar, Khyber Pakhtunkhwa, Pakistan

## Summary

Flutter Developer with 3+ years of experience building mobile apps used by 300K+ users across iOS and Android platforms. I've published 15+ production apps to the App Store and Play Store. My flagship project, Daiary App, reached 290K+ downloads and generated \$2K+ in revenue. Currently developing LocalLoop, a location-based places platform with advanced features including reviews, user profiles, and real-time interactions.

### Technical Expertise:

Clean Architecture, State Management (Provider, BLoC, GetX), Firebase Integration, RESTful API Integration, and complex UI/UX implementations. I specialize in building scalable, maintainable codebases with comprehensive error handling and performance optimization.

### What I Bring:

I transform ideas into high-performing mobile applications that drive user engagement and business growth. From initial architecture to App Store deployment, I handle the complete development lifecycle with attention to quality and user experience.

Currently working on AI-powered content generation features and location-based social platforms.

Open to: Freelance projects, full-time positions (remote & onsite), contract work, and collaboration opportunities.

Let's connect if you're looking to build a mobile app or discuss Flutter development!

---

## Experience

Daiary app

2 years 6 months

### Project Manager

January 2024 - Present (2 years 1 month)

Spain

Leading end-to-end project management for Daiary App with 290K+ downloads and \$2K+ revenue generation.

Manage cross-functional development team and coordinate feature releases across iOS and Android platforms

Implemented agile methodologies reducing development cycles by 25% and ensuring on-time feature delivery

Drive product strategy decisions based on user analytics and feedback, resulting in 4.5★ app rating

Oversee app monetization strategy and user growth initiatives

Coordinate App Store and Play Store optimization efforts

Tech Stack: Flutter, Firebase, Provider/BLoC state management, RESTful APIs

### Mobile Application Developer

August 2023 - Present (2 years 6 months)

Spain

Built Daiary App from ground up as lead Flutter developer, scaling to 290K+ downloads across iOS and Android.

Architected and developed full-stack mobile application using Flutter with clean architecture principles

Implemented offline-first functionality with Firebase real-time sync for seamless user experience

Integrated push notifications system increasing daily active users by 30%

Developed custom UI components and smooth animations achieving 60 FPS performance

Successfully launched on both App Store and Play Store, managing entire deployment pipeline

Implemented analytics tracking and crash reporting for continuous improvement

Tech Stack: Flutter, Dart, Firebase (Auth, Firestore, Cloud Functions), Provider, RESTful APIs, Git

## AptechMedia

### Mobile Application Developer

January 2025 - January 2026 (1 year 1 month)

Peshawar, Khyber Pakhtunkhwa, Pakistan

Contributed as Flutter developer on multiple high-impact mobile applications serving local and international markets.

#### Key Projects:

Paybox - Food ordering and deals platform for UK users

Developed core features for browsing deals and placing orders  
Integrated payment gateways and real-time order tracking  
Implemented push notifications for deal alerts

Meetly Structure - Social events and activities discovery app

Built location-based event discovery features with map integration  
Developed event creation, RSVP, and user matching functionality  
Implemented real-time chat for event participants

Radiant Notes eLibrary - Medical education app for students

Developed medical book reader with treatment guide module  
Created interactive quiz system with progress tracking  
Implemented invite and earn referral system with subscription management  
Built monetization features for sustainable growth

Collaborated with cross-functional teams using agile methodologies  
Implemented clean architecture and BLoC/Provider state management patterns  
Integrated Supabase backend and RESTful APIs for data synchronization

Tech Stack: Flutter, Dart, Firebase, Supabase, Provider, BLoC, AI Integration, RESTful APIs, Git

## SquareHouse.me

### Flutter Developer

April 2025 - August 2025 (5 months)

Kuwait

Worked remotely as a Flutter developer, contributing to multiple client projects across diverse industries.

Collaborated with a distributed development team across different time zones

Developed and maintained features for multiple mobile applications simultaneously

Implemented responsive UI/UX designs following client specifications

Integrated third-party APIs and services for enhanced app functionality

Debugged and optimized app performance for improved user experience

Tech Stack: Flutter, Dart, State Management (Provider/Getx), RESTful APIs, Git

## HAZTECH PVT LTD

Flutter Developer

July 2023 - October 2023 (4 months)

Peshawar, Khyber Pakhtunkhwa, Pakistan

Worked as an Associate Flutter Developer, contributing to multiple mobile applications, including MedicReminder, a healthcare management app for medication scheduling and reminders, and other projects in the utility and wellness sectors.

Developed core features such as push notifications for timely alerts, user-friendly prescription management interfaces, and data visualization components. Collaborated with senior developers to implement best practices and gained hands-on experience with diverse app architectures. Participated in code reviews and testing processes while working with Flutter, Firebase, Provider, and RESTful APIs.

## PTCP

1 year 3 months

## FLUTTER DEVELOPER

February 2022 - February 2023 (1 year 1 month)

Promoted from intern to Flutter Developer after demonstrating strong performance and technical growth. Contributed to multiple client projects while continuing to expand expertise in mobile app development. Worked on building features for Android and iOS applications, implementing UI components, and integrating APIs. Gained hands-on experience with Flutter framework, Firebase integration, and state management patterns. Collaborated with

team members on code implementation and participated in the complete development lifecycle from requirements to deployment.

### Flutter Intern

December 2021 - February 2022 (3 months)

Peshawar, Khyber Pakhtunkhwa, Pakistan

Started Flutter development journey at PTCP with comprehensive training in mobile app development. Learned Flutter framework fundamentals, Dart programming, and mobile app architecture under experienced mentorship. Contributed to real-world projects while building a strong foundation in UI development, API integration, and debugging. Successfully transitioned from training to active development work, leading to promotion to Flutter Developer role.
